

AMENDMENT TO THE SPECIFICATION

Amend the paragraph on page 1, lines 14-21 as follows:

B1 The various collagen containing structures in the body include bone, dentin, cartilage, uterus and the larger vessels in the circulatory system. As the body ages the rate of collagen formation naturally decreases leading to breakdown in tissue and organ structure and function. Other problems can also exacerbate or cause tissue or organ structure deterioration due to inhibition of collagen formation.

Amend the paragraph on page 3, lines 11-12 as follows:

B2 A a suitable laser diode would be a Gallium Arsenide laser diode at 630-690nm or 790-980nm.
